Support	Not Supported	Supported

About ZNetLive

ZNet Technologies Private Limited, incorporated in 2009, is a cloud services provider offering cloud infrastructure and managed services to partners and end customers across the globe with primary focus on India. ZNet powers well over 90K websites and applications globally and is one of the very first Microsoft CSPs in India. The business units of ZNet include ZNetLive (domain, hosting, cloud services provider) and RackNap (cloud service delivery and business automation platform). ZNet offers services from Microsoft, AWS, Alibaba and managed services via its certified cloud professionals. RackNap helps with automating the delivery of cloud services and helps bill the usage based on actual consumption.

ZNet is owned by RP tech India (a division of Rashi Peripherals Pvt Ltd.). Founded in 1989, RP tech India is the fastest-growing value-added distributor of IT and mobility solutions with 50 branches and 50 service centers across India. Growing at a consistent 25% CAGR YoY, the company offers products from over 23 renowned global brands to 9000+ customers spread across 750+ towns/cities in India.
