## MICROSOFT 365 ADDRESSES YOUR KEY CONCERNS

### SECURITY AND PRODUCTIVITY

"It's hard to keep up with modern security threats against my existing infrastructure"

- 200 days is the median # of days attackers are present before detection
- \$3.5M represents the average cost of a data breach (15% YoY increase)
- 80% of employees use non-approved SaaS applications for work

### INFRASTRUCTURE AND DEPLOYMENT

"Upgrading to a modern desktop environment is too expensive and takes too long"

- 80% of workers spend a portion of time working outside the office
- 38% of millennials feel outdated collaboration tools hinder innovation
- Up to 75% of technology spend goes toward maintenance and low-value upgrades to legacy IT systems

## WHAT IS ZNETLIVE TRYING TO ACHIEVE?

The workplace is transforming: changing employee expectations, more diverse and globally distributed teams, and an increasingly complex threat landscape are producing a new culture of work.

Our customers are telling us they want to empower their people with innovative technology to embrace this changed environment.

Microsoft 365 is a new solution that brings together the best-in-class productivity and collaboration capabilities of Office 365 with device management and security solutions to safeguard business data.

Microsoft 365 Enterprise is offered in two plans—Microsoft 365 E3 and Microsoft 365 E5.
